

# STAY ON TOP OF FLUCTUATIONS IN PRODUCT COSTS AND MARKET DEMAND TO MAXIMIZE PROFITABILITY.

CohnReznick's Restaurant Planning & Forecasting App allows you to make real-time adjustments and provides you with 360-degree visibility into how your restaurant is trending.

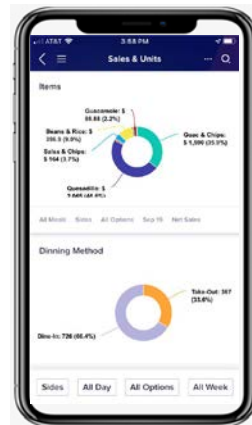

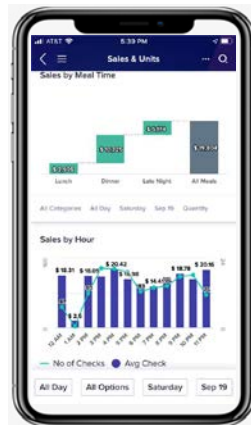

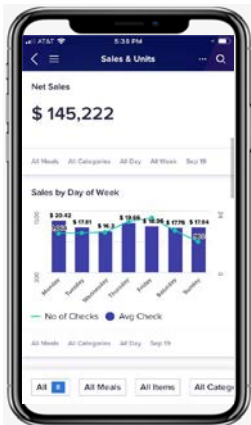

## STAY AHEAD OF THE CURVE AND ENSURE PROFITABILITY NO MATTER THE CIRCUMSTANCES.

The CohnReznick Restaurant Planning & Forecasting App integrates data from your Point of Sales and ERP systems, enabling you to carry out restaurant-level financial planning, project workforce needs, analyze meal-type profitability and evaluate your portfolio from the palm of your hand.

Powered by the cloud-based platform, Anaplan, the app makes real-time adjustments, empowering you to model multiple scenarios across the enterprise, ultimately providing a single source of truth to users in various roles such as CFOs, Operations, General Managers, and the Corporate Finance Department.

### ON THE SPOT PLANNING

## KEY VALUE AREAS

### ENHANCED OPERATIONAL EFFICIENCIES:

- Automate data integration and manual tasks
- Reduce calculation errors
- Promote collaboration across the entire organization
- Enable more proactive decision making

### USABILITY:

- Mobile friendly interface for on-the-go analysis and reporting
- Planning flexibility and precision
- Ability to easily add/delete restaurant assets
- Driver based projections
- What-if scenario analysis

### SECURITY:

- Built on the Anaplan cloud platform
- Enterprise-level security with users given permissions to view and modify data according to their roles.
