

COHNREZNICK'S AFFORDABLE HOUSING INVESTMENT AND OPERATIONAL PERFORMANCE STUDY

By the Numbers

As CohnReznick's Tax Credit Investment Services team gears up to roll out its 2021 study into the investment and operational performance of properties financed by housing tax credits, take a peek at our summary of the data that goes into our Affordable Housing Portfolio Performance Indicator tool, and its extensive use within the industry.

Click through to access our [current interactive performance data](#) and [operating expenses databases](#)

Our 2021 study includes data collected from:

2,000+
funds

Nearly **30,000**
housing tax credit
properties

Millions
of units

This represents **~70%** of actively managed housing tax credit properties.

Operating and performance data from **2008 - 2020**, allows for both long-term and current trend analysis

2,300 active users and counting

Single largest affordable housing study of its kind in the industry

Don't miss out!

Be sure you're subscribed to our [Affordable Housing News and Views newsletter](#) to receive the latest updates about the 2021 study's insights and the report launch coming this fall.
